# Discover information-driven healthcare from Dell at HIMSS14.

Come to Dell Booth #5264 in Hall C:

- Hands-on demonstrations including healthcare cloud, EMR, security, ICD-10 and analytics solutions

- Daily presentations of cutting-edge health IT innovation strategies (schedule on back)

- An interactive showcase of Dell's newest products for secure, mobile access to patient data

Join us on Tuesday and Wednesday for breakfast and expert panel discussions about the future of health IT (schedule and location on back).

Learn more about Dell's end-to-end healthcare solutions at Dell.com/healthcare.

Enter for a chance to win a Dell Venue Pro 11 tablet.*

Visit Dell Booth #5264 in Hall C to enter a daily drawing.

Join us for dynamic conversation on essential health IT topics.

Enjoy breakfast and hear expert panel discussions in
Suite 340C on the 3rd floor of the Convention Center.

Advanced Systems and Analytics for Accountable Care Models	Beyond BYOx - The Internet of Things in Healthcare	A Virtualized Linux offering for Epic customers
Date: Tuesday 2/25 **Time:** Breakfast, 7:30 – 8:30 am **Moderator:** Andrew Litt, MD; Chief Medical Officer, Dell Healthcare Learn how healthcare organizations are expanding their BI strategy for centralizing and standardizing clinical data, creating new reporting capabilities to electronically capture data for submission to CMS, and using real-time analysis of cross-functional compliance with specific operational and clinical quality measures.	**Date:** Wednesday 2/26 **Time:** Breakfast, 7:30 – 8:30 am **Moderator:** Alex Castillo, Solutions Strategist, Dell Healthcare An expert panel will discuss how BYOx has affected healthcare, and strategies organizations are adopting to manage the trend. We will also explore how today's implementation of a scalable BYOx strategy can prepare healthcare organizations for the future of connected devices or "The Internet of Things."	**Date:** Wednesday 2/26 **Time:** 9:30 – 10:30 am **Moderator:** Anatol Blass, PhD, Systems Consultant, Dell Healthcare Epic DRIVE is a highly available, x86-based Linux solution for Epic EHR. In this session, we will explore the value of implementing the DRIVE solution, including the ability to collaborate with Epic at the DRIVE Center of Excellence, demonstrate significant cost savings, and extend the solution into other key application areas.

See the latest in health IT innovation during daily presentations at **Dell Booth #5264 in Hall C**.
